U.S. Patent and Trademark Office
Crystal Park Building 2, Suite 919
Washington, D.C. 20231

OFFICE OF THE ASSISTANT
COMMISSIONER FOR PATENTS

APR - 3 1995

RECEIVED

#10

Dear Mr. Kunin:

This is in regard to the application for patent term extension for U.S. Patent No. 4,303,651 filed by Pharmacia Aktiebolag under 35 U.S.C. § 156. The human drug product claimed by the patent is Fragmin™ (dalteparin sodium), which was assigned New Drug Application (NDA) No. 20-287.

A review of the Food and Drug Administration's official records indicates that this product was subject to a regulatory review period before its commercial marketing or use, as required under 35 U.S.C. § 156(a)(4). Our records also indicate that it represents the first permitted commercial marketing or use of the product.

The NDA was approved on December 22, 1994, which makes the submission of the patent term extension application on February 15, 1995, timely within the meaning of 35 U.S.C. § 156(d)(1).

Should you conclude that the subject patent is eligible for patent term extension, please advise us accordingly. As required by 35 U.S.C. § 156(d)(2)(A) we will then determine the applicable regulatory review period, publish the determination in the Federal Register, and notify you of our determination.

Please let me know if we can be of further assistance.

Sincerely,

Ronald L. Wilson, Director
Health Assessment Policy Staff
Office of Health Affairs
